FREEDOMLINK+ M24S USER MANUAL

www.freedomlinkplus.com

Thank you for your purchase!

Before Getting Started

1. Make sure you have a good 4G signal
2. Make sure the SIM Card is securely inserted.
3. This SIM card can not be used in any other device and will cause the SIM card to be locked.
4. The antenna needs to be on the radio for the radio to register with the LTE network.
5. Confirm that the antenna is on the port shown in the picture.
6. Radio audio is through the microphone.

Precautions

- Refer service to qualified technicians only
- Do not disassemble or modify the transceiver for any reason.
- Do not expose the transceiver to direct sunlight for a long time or in extremely hot conditions.
- Do not place the radio on an unstable surface.
- Keep the radio out of dust, moisture, and water.
- Do not operate the radio under explosive conditions.

Items Included with Your Purchase

1. Mounting Bracket
2. Power Cable
3. Antenna
4. Microphone

- Solid green while receiving
- Flashes red and green while powering off

Right LED Solid Green while Powering on

Right LED Indicator

- Solid Green while Powering on

Common Functions

Group Call

Just like a regular two way radio, when you speak in a group, all other people in this group will receive you call.

Single Call

When you enter the single call mode, you can choose the users of the current group online and let them enter the single channel mode with you. When one of you quits the single call mode, the two parties will exit the single call mode at the same time and return to the original group.

Adjust Volume

Rotate the volume knob to reach the appropriate volume or use the side key to adjust the up and down keys

Common Functions

SOS - Radio Needs To Have SOS Enabled By the Dealer

A user may press and hold the SOS key on top of the radio for 3 seconds. The radio will then display "SOS Succeed" until the user presses a button on the radio. After sending the SOS, the radios that are on the same channel that the sender is on will begin to alarm and flash red and white on their screen. The radio name of the sender will scroll across the screen along with the latitude and longitude of the radio. Radio needs to have GPS enabled and has a GPS signal to obtain the lat and long of the SOS radio.

Programming

Please contact us at info@freedomlinkplus.com for any programming changes you require. Programming changes can be made over the air.

Examples of programming changes:

- Names (Between 2-11 Characters)
- Groups

Warranty

Thank you for your interest in the products and services of FreedomLINK+. This Limited Warranty applies to physical goods, and only for physical goods, purchased from FreedomLINK+ (the "Physical Goods").

What does this limited warranty cover?

This Limited Warranty covers any defects in material or workmanship under normal use during the Warranty Period. During the Warranty Period, FreedomLINK+ will repair or replace, at no charge, products or parts of a product that proves defective because of improper material or workmanship, under normal use and maintenance.

What will we do to correct problems?

FreedomLINK+ will either repair or replace the Product at no charge, using new or refurbished replacement parts.

How long does the coverage last?

The Warranty Period for Physical Goods purchased from FreedomLINK+ is 1 year from the date of purchase. A replacement Physical Good or part assumes the remaining warranty of the original Physical Good or 1 year from the date of replacement or repair, whichever is longer. Accessories have a 6 month warranty.

What does this limited warranty not cover?

This Limited Warranty does not cover any problem that is caused by: ● conditions, malfunctions, or damage not resulting from defects in material or workmanship

What do you have to do?

To obtain warranty service, you must first contact us to determine the problem and the most appropriate solution for you.
